EDUCATION

Liberty University, Lynchburg, Virginia

Aug. 2018 - May 2022

B.S. in Information Systems: Database Management

Certifications: Google Data Analytics, Bloomberg Market Concepts

Relevant Coursework: Studies in Information Security, Advanced Oracle, Web Architecture & Programming, Statistics & Probability, Macroeconomics, Managerial Accounting, System Analysis & Design, Database Management, Principles of Management, IS Project Management.

EXPERIENCE

Hoboken Grace Volunteer Data Analytic Team

Sep. 2022 - Current

- Work on a weekly basis to clean, create and verify the integrity of data received to input the data into an online analysis software. Currently assisting in the transfer and development to Google Looker & Cloud Platform.

Capstone: Volunteer and Event Coordination Full Stack Application

Aug. 2021 – May 2022

- Developed a full stack volunteer and event coordination management platform utilizing MVC Agile Framework Design for the organization my team collaborated with.
- Followed disciplined Agile project management process to achieve high quality and timely delivery for optimal end client satisfaction.

Project: View-Model-Controller Database Implementation

- Designed front-end websites to enable client support, emphasizing and driving business work and offerings.
- Engineered a mock hospital SQL database which included over 100 tuned queries, and optimally converting 1000s of rows of data from excel into SQL.
- Upon database creation, custom client queries were utilized to deliver statistical analysis using Tableau.

COMMUNITY SERVICE/LEADERSHIP

Habitat For Humanity Volunteer, Lynchburg, Virginia

Constructed houses, cleaned facilities, managed office duties at Habitat ReStore location, and assisted at understaffed sporting events due to Covid-19 as part of the Habitat for Humanity club.

Gaming Club Manager

Managed weekly club gatherings and successfully organized a bi-yearly 24-hour fundraising charity event by managing local network, computers, and sponsors alongside Extra Life staff and club members. This included communicating and managing resources with local hospitals, schools, and organizations. This event was success in raising upwards of around \$2000 dollars by the end of each event.
